[International Student Loan](#)

Category: [Student Loan Consolidation](#) —

International students loan are loan for students who choose to study abroad. This may refer to American students studying in countries outside the United States, it may refer to European, Asian, Latin American or other students studying in the United States, or it may refer to any student from any country attending college or university outside of their native land.

Unique Challenges for International Students

Going off to college can be very exciting, but at the same time it can be an intimidating experience. For many young people, college is their first experience away from home and living on their own. International students face a number of additional challenges. For example, even if the student has studied the language of the country they are going to college in extensively, it is still not their native tongue, and they are bound to encounter some communication challenges. Cultural differences can also present some difficulties to new international students. Other challenges, especially those of a more technical nature, can be downright scary. For example, navigating the inter-country visa system, trying to locate housing, filling out health forms and applications required by the university – all of this can be confusing if you don’t understand the system and everything is a language that is foreign to you.

Help for International Students

Fortunately, there are a number of resources that these students can turn to. First, there is the Web. Not only is this an excellent source for information in general, but there are also sites dedicated solely to helping international students. These sites offer information regarding the university admissions process, paying for scholarships, student visa guidelines, employment and much more.

In addition to the help and resources that are available on the Web, there are organizations dedicated to help international students get situated. Going through one of these organizations can provide the student – let alone the parents – with peace of mind.
